# NO LIMITS SWIMMING RESULTS

The point scoring system for the ACC No Limits multi class swimming (MCS) results uses the MCPS LC Calculator on the Swimming Australia website.

Long course: <https://www.swimming.org.au/swim-1/compete/multi-class>

The point scoring system is calculated against the World Best time as at October (being 1000 points). Percentile ranking is calculated by getting the point score dividing it by 1000 and then multiplying by 100. A point score of over 300 is recommended for as a talent ID guide for competitive high level MC swimming.

The winner of each ACC No Limits MSC event will be the swimmer with the highest point score based on the MCPS LC calculator. If there is only one student in a particular age group/gender/classification event, then that swimmer will be declared the winner of the event.

New ACC Records will be established for each age group/gender/classification event (N/A for 2020).
